

O'Dea High School Community Responsibility Agreement

As we prepare for in-person instruction, the health and safety of each student, faculty and staff member remains a foremost a priority. To keep our campus safe, we have a shared responsibility for our own individual health, and the health, safety, and wellbeing of each other. This shared responsibility not only shows respect for others, it helps limit the spread of COVID-19, which increases the likelihood of our ability to continue in-person instruction throughout the year. We all must make the appropriate decisions to protect ourselves and our community.

The O'Dea Community Responsibility Agreement has been created to summarize expected public health behaviors and ensure our commitment and collective responsibility to each other.

I agree to show care and respect for myself and others in our community by:

1. Making good personal choices to minimize COVID-19 exposure both in school and outside of school
2. Conducting the daily health screening on the Magnus app and staying home according to [King County Department of Public Health guidelines](#) for schools. This includes staying home if I have one or more COVID-19 symptoms for 24 hours or more, or have been in close contact with someone who has tested positive for COVID-19.
3. Calling my healthcare provider and getting tested for COVID-19 as soon as possible if I experience symptoms.
4. Wearing a face covering over my nose and mouth while in public, as required by Washington State law.
5. Maintaining an appropriate physical distance from others, including following gathering limitations away from school.
6. Washing my hands with soap and warm water for at least 20 seconds or using a hand sanitizing solution of at least 60% alcohol, rubbing all areas of hands until dry.
7. Communicating my positive COVID-19 test result or close contact I have had with someone with COVID-19 to [Laura Weinand](#), CFO and O'Dea contact tracer.
8. Reading and understanding information related to health, safety, and COVID-19 while on campus, which can be found on the O'Dea High School [website](#).
9. Agreeing to self-isolate or quarantine based on [King County Department of Public Health guidelines](#).
10. Understanding that O'Dea may have to adjust guidelines and protocols if public health data worsens or an outbreak occurs on campus.
11. Holding myself accountable to these health and safety guidelines and encouraging my peers to do the same.
12. Following [CDC guidelines](#) for out of state travel.
